Module 1: Shipment Management — User Help Guide

End-User Operations Manual for Export/Import Coordinators, Freight Forwarding Desks & Documentation Teams

1. Module Overview & Operational Purpose

The **Shipment Management** module is the central operational control desk of NavisLogix ERP. It tracks every shipment from the moment a customer booking is converted into an active movement until final cargo delivery at the consignee's warehouse. Operations executives use this module to manage routing, carrier schedules, transport documents (Bills of Lading and Airway Bills), customs declarations, and marine transit insurance.

- **Who Uses This Module**: Export/Import Documentation Executives, Ocean & Air Operations Coordinators, Customs Clearance Teams, and Branch Managers.
- **How to Open**: Click **2. Shipment Management** in the left navigation sidebar, or click the **New Shipment** button in the top application bar.
- **Split-Screen Workspace**: The left side displays your searchable **Saved Shipment Records** index, while the right side provides the 6-section **Add / Edit Shipment Form**.

2. Finding, Viewing & Managing Saved Shipments (Left Panel)

The left-hand directory gives you instant access to all historical and active shipments without leaving the form screen:

- **Quick Search Bar**: Type any Shipment Reference, Bill of Lading number, Customer Name, Origin Port, or Destination Port to filter the list as you type.
- **Status & Transport Mode Filters**: Narrow the list by Shipment Status (*Draft, Booked, In Transit, Customs Clearance, Delivered, Cancelled*) or Mode (*Sea, Air, Road, Rail, Multimodal*).
- **Sorting & Pagination**: Sort records by Newest/Oldest Date, Reference Number, Customer Name, or Status, and step through pages using the **Prev** and **Next** buttons at the bottom of the table.
- **Row & Action Icons**: Click anywhere on a table row (or click the **Edit** pencil icon) to load that shipment into the right-hand editor. Click the **View** eye icon to open a printable **Combined Transport Bill of Lading & Shipment Manifest**. Click the **Delete** trash icon to remove a shipment after confirming in the safety prompt.

3. Complete Field Reference Guide (Right Panel — Sections A to F)

The Shipment Form is organized into six logical business sections. Fields marked with a red asterisk (*****) are mandatory before saving.

Form Section	Key Fields Included	Operational Guidance & What to Enter
A. Shipment Identification	Shipment ID, Shipment Ref*, Booking Ref*, Type*, Mode*, Category, Priority, Status*	**Shipment ID** is generated automatically. Select or type a **Booking Ref** to automatically fill customer and route details from Module 2. Choose whether the movement is *Export, Import, Domestic,* or *Transshipment*, and select the cargo category (such as *FCL, LCL, Air Consolidation,* or *Reefer Cold Chain*).
B. Parties Information	Customer ID*, Shipper Name*, Consignee Name*, Notify Party, Contact Person*, Email*, Phone*, Billing Party	Select the **Customer ID** from the dropdown to auto-fill contact person, phone, email, and billing party details. Enter the legal **Shipper** (exporter) and **Consignee** (importer) names exactly as they should appear on the Bill of Lading, along with the customs broker or **Notify Party** at destination.
C. Route & Carrier Info	Origin Country/Port/City*, Place of Receipt, Destination Country/Port/City*, Place of Delivery, Transshipment Port, Vessel, Voyage, Shipping Line	Record the Port of Loading (POL, e.g., *INNSA Nhava Sheva*) and Port of Discharge (POD, e.g., *DEHAM Hamburg*), inland CFS/ICD receipt and delivery points, intermediate transshipment hub (or *Direct*), mother vessel or flight name, voyage number, and shipping line.
D. Schedule & Milestone Dates	Booking Date*, Cargo Ready Date, ETD*, ATD, ETA*, ATA, Final Delivery Date	Enter the confirmed **Booking Date**, **Estimated Departure (ETD)**, and **Estimated Arrival (ETA)**. Once the vessel sails or lands, update the **Actual Departure (ATD)**, **Actual Arrival (ATA)**, and **Final Delivery Date** for accurate KPI tracking.
E. Transport & Customs Docs	Bill of Lading No., Master BL (MBL), House BL (HBL), Airway Bill (AWB), Customs Declaration, Certificate of Origin, Document Status	Record carrier Master BL and forwarder House BL numbers (or MAWB/HAWB for air cargo), Shipping Bill / Bill of Entry customs numbers, Certificate of Origin reference, and current release stage (e.g., *Draft BL Approved, Original BL Issued, Telex Express Release,* or *Customs Cleared LEO*).
F. Commercial Terms & Insurance	Incoterms (2020), Payment Terms, Insurance Required, Coverage Amount, Special Instructions, Internal Remarks	Select the agreed Incoterm (*FOB, CIF, CFR, EXW, FCA, DAP, DDP, CPT*) and whether freight is *Prepaid* or *Collect*. If Marine Insurance is set to *Yes*, enter the insured cargo value in USD. Use **Special Instructions** for stowage/handling notes that print on manifests.

4. Step-by-Step Daily Workflows

1. **Creating a New Shipment Quickly from a Booking**: Click **New** at the top of the Saved Shipments panel (or **Reset Form**). In Section A, pick the confirmed **Booking Ref Number**. The system immediately fills in the Customer, Contact details, Shipment Type, Transport Mode,

Origin/Destination Ports, and target ETD/ETA dates. Complete the remaining carrier and document fields, then click **Save Shipment**.

2. **Updating Transit & Customs Status**: Click the shipment row in the left list. The form header switches to **Editing Mode**. Update the **Shipment Status** (for example, from *Booked* to *In Transit* or *Customs Clearance*), enter the Actual Departure/Arrival date or BL number, and click **Update Shipment**.
3. **Printing a Combined Transport Bill of Lading Manifest**: Click the **View** (eye) icon next to any shipment in the left table. A formatted Bill of Lading & Shipment Manifest window opens, complete with all linked containers from Module 3. Click **Print / Save PDF** at the top right of the preview window.

5. Best Practices & Troubleshooting Tips

Common Scenario / Question	Recommended Action in Shipment Management
Form highlights fields in red when saving	One or more mandatory fields (marked with *) are blank. Check Shipment Ref, Booking Ref, Customer ID, Shipper/Consignee Names, Origin/Destination Ports, Booking Date, ETD, and ETA.
Containers are not showing on the Shipment Manifest	Open **Module 3 (Container & Cargo Management)** and ensure each container record has the exact same **Shipment Reference** linked in Section A.
Exiting Edit Mode without saving changes	Click the red **Cancel Editing** button (or **Reset Form**) at the bottom of the form to return to New Entry Mode without altering the saved record.
