Module 2: Customer & Booking Management — User Help Guide

End-User Operations Manual for Sales Desks, Customer Service Executives, Booking Coordinators & Credit Control

1. Module Overview & Operational Purpose

The **Customer & Booking Management** module manages your company's client directory alongside incoming cargo space allocations. It connects corporate customer profiles (including statutory tax numbers, addresses, and credit limits) with individual freight bookings so one customer account can hold unlimited repeat bookings across sea, air, road, rail, and multimodal lanes.

- **Who Uses This Module**: Freight Sales & Pricing Teams, Booking Desk Coordinators, Customer Onboarding Specialists, and Credit Control Officers.
- **How to Open**: Click **3. Customer & Booking** in the left sidebar navigation, or click **Customer Bookings** on the Dashboard.
- **One-to-Many Relationship**: Customer master profiles and individual bookings are stored cleanly so updating a customer's credit limit or contact details keeps all their bookings synchronized, while allowing you to create new bookings for existing clients in seconds.

2. Searching & Filtering Customer Bookings (Left Panel)

The left-hand panel lists all saved customer bookings with their associated client details:

- **Instant Search**: Search by Customer Name, Customer ID, Booking Reference, Country, Contact Person, Phone, Email, or GST/Tax number.
- **Customer Type & Booking Status Filters**: Filter records by Customer Type (*Company, Freight Forwarder, Agent, Individual*) or by Booking Status (*Confirmed, Pending, Rejected, Cancelled*).
- **Sorting & Pagination**: Sort by Booking Date (Newest first), Customer Name (A to Z), Booking Reference, or Country.
- **Row Actions**: Click any row or the **Edit** icon to load both the customer profile and booking into the right-hand form. Click the **View** (eye) icon to open a printable **Customer & Booking Confirmation Note** that also lists every booking ever placed by that customer.

3. Complete Field Reference Guide (Right Panel — Sections A to E)

The right-hand form is divided into five structured sections covering corporate compliance, contacts, addresses, cargo booking specifications, and commercial credit terms.

Form Section	Key Fields Included	Operational Guidance & What to Enter
A. Customer Identification	Customer ID (Auto), Customer Short Code*, Customer Type*, Company Name*, Legal Business Name, GST, PAN, IEC, VAT/Tax No.	**Customer ID** is assigned automatically (e.g., *CUST-2026-001*). Enter an easy-to-recognize **Short Code** (such as *BHEL-IN*), choose the account type, and record statutory compliance numbers: **GST Number**, **PAN**, **IEC (Import Export Code)** for Indian shippers, or international **VAT / EORI / TRN** registration numbers.
B. Contact Information	Contact Person*, Designation, Primary Email*, Alternate Email, Mobile Number*, Office Phone, Website	Enter the primary supply chain or EXIM coordinator's name, job title, primary email for booking confirmations, secondary accounts/finance email, and direct mobile and landline numbers.
C. Registered, Billing & Shipping Address	Address Line 1*, Address Line 2, City*, State, Country*, Postal Code, Billing Address, Warehouse/Shipping Address	Record the registered corporate office address, the full **Billing Address** (used automatically on Tax Invoices in Module 4), and the factory, warehouse, or CFS receiving address.
D. Booking Details	Booking Ref (Auto), Booking Date*, Shipment Type*, Transport Mode*, Origin*, Destination*, Cargo Description*, Expected Qty, Gross Weight (KG), Volume (CBM), Preferred Shipping Date, Expected Delivery Date, Booking Status*	**Booking Ref** is generated automatically (e.g., *BKG-2026-1001*). Specify the trade direction, transport mode, origin and destination ports/cities, commodity and equipment description (e.g., *2×40HQ Automotive Stamping Dies*), package count, total weight in KG, volume in CBM, target dates, and status (*Pending, Confirmed, Rejected, Cancelled*).
E. Commercial & Credit Governance	Credit Limit, Currency, Payment Terms, Credit Period (Days), Tax Category, Customer Tier, Account Manager, Commercial Notes	Set the approved credit limit and currency (*USD, INR, EUR, GBP, AED, SGD*), payment terms (*Net 15/30/45/60, Advance, CAD, Letter of Credit*), GST/Tax category (e.g., *GST Standard 18%, Export Zero-Rated LUT, SEZ Exempt*), and dedicated Account Manager.

4. Step-by-Step Daily Workflows

1. **Onboarding a Brand-New Customer & First Booking**: Click **New** (or leave the top blue bar set to *-- Create Brand New Customer --*). Complete Sections A, B, C, D, and E, then click **Save Customer & Booking**. Both the customer master record and the booking allocation are saved simultaneously.
2. **Adding a Second or Repeat Booking for an Existing Customer**: Use the blue quick-selector bar at the top of the right-hand form (*"Want to add another booking for an existing customer?"*) and select the customer from the dropdown — OR load any existing booking for that customer and click the **+ New Booking for This Customer** button at the bottom. Sections A, B, C, and E are pre-filled

automatically while a fresh **Booking Ref Number** is generated in Section D. Fill in the new cargo and route details in Section D and click **Save Customer & Booking**.

3. **Converting a Confirmed Booking into a Shipment**: Once a booking is marked *Confirmed*, open **Module 1 (Shipment Management)** and select its **Booking Ref Number** in Section A to auto-populate the shipment form.

5. Best Practices & Troubleshooting Tips

Common Scenario / Question	Recommended Action in Customer & Booking Management
How do I see all bookings belonging to one customer?	Type the customer's name or Customer ID into the left-hand search bar, or click the **View** (eye) icon on any of their bookings to view a consolidated table of all bookings linked to that customer.
What happens if I delete a booking?	Deleting a booking removes only that specific booking allocation; the customer's master profile and any other bookings remain safely stored.
International customers without Indian GST/PAN	Enter *N/A* in the GST and PAN fields and record their foreign tax registration or EORI number in the **VAT / Tax Registration No.** and **IEC** fields.
